

MUNDARIJA

O.V. Radionova, R.A. Sitdikov. Energetik o'zgarish sharoitida elektr energetikasini rivojlantirish va boshqarishning innovatsion texnologiyalari.....	1
N.N. Tsibov, J.T. Galbaev, B.B. Bekjanova, A.K. Qarmisqov, S.D. Umetaliyev, A.G. Saidxodjayev. Energetika universitetlari uchun axborot-o'quv tizimlarini yaratishda kognitiv tizimlar tahlilini qo'llanilish xususiyatlari.....	10
A.K. Karmshaqov, J.T. Galbaev, F.A. Xoshimov. Quvvat elektronikasi uchun panel o'lchov asboblari.....	22
T.Sh. Gayibov, A.E. Shanazarov. Yirik quvvatli quyosh elektr stansiyasiga ega bo'lgan energetika tizimlarning barqaror ish holatlarini ta'minlash.....	31
A.D. Taslimov, F.M. Raximov, F.M. Raximov. O'rta kuchlanishli taqsimlovchi elektr tarmoqlarida neytralni turlicha ulash usullarida hosil bo'ladigan o'ta kuchlanishlarning tadqiqi..	39
R.A. Zaxidov, E.T. Yusupov. Shamol elektr stansiyalari ishlab chiqarish jarayonida quvvat tebranishlarining chastotaviy tavsiflarini tahlil qilish.....	46
M.K. Bobojanov, E.G. Usmanov, R.Ch. Karimov. Elektr energiyasi iste'molini monitoring qilish tizimlarida zamonaviy avtomatlashtirilgan boshqaruv yechimlarining qo'llanilishi.....	58
Sh.V. Xamidov, I.M. Buranov, B.R. Normuratov. Yashil energetikaga o'tish davrida O'zbekiston elektr energetika tizimining ishonchligini oshirish.....	75
T.F. Maxmudov, A.N. Ramatov. Qisqa muddatli rejalashtirishda aktiv quvvat yo'qotishlarini minimallashtirish orqali taqsimlovchi elektr tarmoqlari rejimini optimallashtirish.....	83
F.N. Tuychiev, N.X. Rashidov. Elektr energetika tizimlarida yuklama o'zgarishlari sharoitida reaktiv quvvatni avtomatik kompensatsiyalashning adaptiv boshqaruv tizimini ishlab chiqish..	97
A.D. Taslimov, V.U. Mo'minov. Turar-joy binosi elektr iste'molchilarini 0,38 kV tarmog'idagi kuchlanish va tok sinusoidaligini buzilishiga ta'siri.....	109
X.F. Shamsutdinov, D.Q. Yodgorov, U.B. Turdiev. "Keles" podstansiyasida yangi ishga kiritilayotgan 220 kV L-2-K-4 elektr uzatish liniyasining releli himoya imitatsion modelini ishlab chiqish.....	116
X.S. Isoxodjayev, Z.Y. Hasanov, S.K. Yarashov. Suvni kimyoviy tuzsizlantirish uchun ionit filtrlarni regeneratsiya qilish qurilmasini avtomatlashtirish.....	124
K.M. Reymov, F.A. Xoshimov. O'zbekistonda suv va energiya tanqisligi sharoitida qayta tiklanuvchi manbalar asosidagi havo sovitish qurilmasining ilmiy va texnologik asoslari.....	129
M.Q. Bobojanov, F.N. Tuychiev, N.X. Rashidov. Kombinatsiyalashgan chulg'am qo'llash orqali asinxron mashinalar energiya samaradorligini oshirish.....	135
Sh.Y. Usmonov, M.S. Sharipov. Parallel nasoslarning intellektual energiya tejamkor boshqaruv tizimi.....	141
N.R. Avezova, I.J. Jahongirov, E.A. Oshepkova, S.M. Maxmudov, A.A. Xolikov. O'zbekistonning ekologik siyosati va CO ₂ chiqindilarini kamaytirish choralari.....	149
Y.M. Bobojonov, B.T. Seitmuratov, T.T. Berdanov, G.R. Rafikova. Asinxron generatoridagi o'tkinchi jarayonlarda chiqish kuchlanishini barqarorlashtirishga doir tadqiqot natijalari.....	157
K.G. Abidov, G.M. Maxmadiev. Havo oralig'i bir xil bo'lgan mashinalarda stator chulg'amining asosiy va differensial sochilma induktivliklarini energetik usulda hisoblash usuli.....	163
K.M. Reymov, Y.M. Bobojonov, B.T. Seitmuratov, T.S. Mamarasulova. Elektr stansiyada parallel ishlayotgan sinxron va asinxron generatorning imitatsion model asosidagi holat parametrlari tahlili.....	173
M. Muxammadiyev, B. Urishev, S.R. Juraev. Qayta tiklanadigan energiya manbalaridan foydalanish asosida yirik nasos stansiyalarining energiya xarajatlarini qisqartirish.....	179

E.X. Abduraimov. Kontaktsiz qurilmalardan foydalangan holda elektr ta'minoti tizimlarining elektr energiyasi sifatini ta'minlash.....	189
M.B. Xudayarov. Qayta tiklanadigan energiya manbalariga asoslangan avtonom elektr ta'minoti tizimining modellashtirish usuli.....	195
N.N. Sadullayev, M.O. G'afurov. Energiya iste'moli obyektni umumlashgan energiya samaradorlik ko'rsatkichini aniqlashning analitik tadqiqoti.....	206
G.J. Allayeva. Yashil iqtisodiyotga o'tishda energetik inqilobning ahamiyati.....	213
Z.I. Juraeva, I.A. Yuldoshev, I.R. Juraev. Bino fasadi uchun mo'ljallangan fotoelektrik qurilmaning ish parametrlarini eksperimental tadqiq etish.....	220
T.Sh. Gayibov, G.M. Turmanova. Elektr tarmoqlarining holatlarini kuchlanish bo'yicha genetik algoritm yordamida optimallashtirish.....	230
M.M. Karimov, S.M. Nizamova. Energetik obyektlarni monitoring tizimlarining o'lchash kanallaridagi signallarni invers qayta ishlash jarayonini matematik va kompyuter modellashtirish usullari va vositalarini ishlab chiqish.....	238
M.V. Sagatov, V.A. Fedorchuk. Matematik va kompyuter modellashtirish usullaridan foydalanish asosida neft kon mexanizmi elektr yuritmasining barqarorligini tadqiq etish.....	250
I.U. Raxmonov, N.N. Niyozov, D.A. Jalilova. O'zbekiston quyosh elektr stansiyalaridagi markaziy inverterlarning ishonchliligini baholash va nosozliklarni erta aniqlash tizimini ishlab chiqish.....	259
I.U. Raxmonov, N.N. Niyozov, F.B. Omonov. Tarmoqqa ulangan shamol energetika tizimining soddalashtirilgan generator va MPPT boshqaruv tizimi asosidagi dinamik modellashtirilishi va ishlash samaradorligini tahlil qilish.....	265
M.F. Qorjobova, D.A. Jalilova. Ip-yigiruv korxonalarida kuchlanish pasayishini rostdashni matematik modellashtirish.....	272

К.М. Реймов, Ю.М. Бобожонов, Б.Т. Сентмуратов, Т.С. Мамарасулова. Анализ параметров режима параллельно работающего синхронного и асинхронного генератора на электростанции на основе имитационной модели.....	173
М. Мухаммадиев, Б. Уришев, С.Р. Жураев. Снижение энергетических затрат крупных насосных станций с использованием возобновляемых источников энергии.....	179
Э.Х. Абдураимов. Обеспечение качества электроэнергии систем электроснабжения с применением бесконтактных устройств.....	189
М.Б. Худаяров. Метод моделирования автономной системы электроснабжения на основе возобновляемых источников энергии.....	195
Н.Н. Садуллаев, М.О. Гафуров. Аналитическое исследование определения обобщенного показателя энергоэффективности объекта энергопотребления.....	206
Г.Ж. Аллаева. Роль энергетической революции в переходе к зелёной экономике.....	213
З.И. Жураева, И.А. Юлдошев, И.Р. Жураев. Экспериментальное исследование рабочих параметров фотоэлектрической установки, предназначенной для фасада здания.....	220
Т.Ш. Гайибов, Г.М. Турманова. Оптимизация режимов электрических сетей по напряжению с помощью генетического алгоритма.....	230
М.М. Каримов, С.М. Низамова. Разработка методов и средств математического и компьютерного моделирования процесса инверсной обработки сигналов в измерительных каналах систем мониторинга энергетических объектов.....	238
М.В. Сагатов, В.А. Федорчук. Исследование устойчивости электропривода нефтепромыслового механизма на основе использования методов математического и компьютерного моделирования.....	250
И.У. Рахмонов, Н.Н. Ниезов, Д.А. Жалилова. Разработка системы оценки надежности и раннего выявления неисправностей центральных инверторов на солнечных электростанциях Узбекистана.....	259
И.У. Рахмонов, Н.Н. Ниезов, Ф.Б. Омонов. Динамическое моделирование и анализ производительности ветроэнергетической системы, подключённой к сети, с упрощённым генератором и системой управления МРРТ.....	265
М.Ф. Корджובה, Д.А. Жалилова. Математическое моделирование процессов регулирования провалов напряжения на прядильных предприятиях.....	272

CONTENTS

O.V. Radionova, R.A. Sitdikov. Innovative technologies of development and management of electric power industry in the conditions of energy transition.	1
N.N. Tsybov, Zh.T. Galbaev, B.B. Bekzhanova, A.K. Karmyshakov, S.D. Umetaliev, A.G. Saidkhodjayev. Features of the application of cognitive systems analysis in the creation of information training systems for energy universities.	10
A.K. Karmyshakov, Zh.T. Galbaev, F.A. Khoshimov. Panel Measuring Instruments for Power Electronics.	22
T.Sh. Gayibov, A.E. Shanazarov. Providing steady-state power systems containing large solar power plants.	31
A.D. Taslimov, F.M. Rakhimov, F.M. Rakhimov. Investigation of overvoltages arising from different neutral grounding methods in medium-voltage distribution networks.	39
R.A. Zahidov, E.T. Yusupov. Analysis of frequency characteristics of power fluctuations during electricity generation in wind power plants.	46
M.K. Bobojanov, E.G. Usmanov, R.Ch. Karimov. Application of modern automated control solutions in electric power consumption monitoring systems.	58
Sh.V. Khamidov, I.M. Buranov, B.R. Normuratov. Improving the reliability of the energy system of Uzbekistan under the conditions of the “green” transition.	75
T.F. Makhmudov, A.N. Ramatov. Optimisation of the distribution network mode by minimising active power losses in short-term planning.	83
F.N. Tuychiev, N.Kh. Rashidov. Development of an adaptive control system for automatic reactive power compensation under load variation conditions in electric power systems.	97
A.D. Taslimov, V.U. Muminov. The influence of electrical consumers in residential buildings on the disturbance of voltage and current sinusoidality in the 0.38 kV network.	109
Kh.F. Shamsutdinov, D.Q. Yodgorov, U.B. Turdiev. Development of a simulation model of relay protection for the newly commissioned 220 kV line L-2-K-4 at the Keles substation.	116
Kh.S. Isakhodjaev, Z.Y. Hasanov, S.K. Yarashov. Automation of the unit for regeneration of ionic filters for chemical desalination of water.	124
K.M. Reymov, F.A. Khoshimov. Scientific and technological foundations of an air cooling system based on renewable energy sources under water and energy scarcity conditions in Uzbekistan.	129
M.K. Bobojanov, F.N. Tuychiev, N.Kh. Rashidov. Improving the energy efficiency of induction machines through combined windings.	135
Sh.Y. Usmonov, M.S. Sharipov. Intelligent energy-efficient control system for parallel pumps.	141
N.R. Avezova, I.J. Jahongirov, E.A. Oshepkova, S.M. Maxmudov, A.A. Xolikov. Environmental policy of Uzbekistan and measures to reduce CO ₂ emissions.	149
Y.M. Bobojonov, B.T. Seitmuratov, T.T. Berdanov, G.R. Rafikova. Results of research on stabilizing the output voltage during transient processes in an asynchronous generator.	157
K.G. Abidov, G.M. Makhmadiev. Method for calculating the main and differential leakage inductances of the stator winding using the energy method in machines with a uniform air gap.	163
K.M. Reymov, Y.M. Bobojonov, B.T. Seitmuratov, T.S. Mamarasulova. Analysis of the parameters of the parallel-operating synchronous and asynchronous generator at the power plant based on the simulation model.	173
M. Mukhammadiyev, B. Urishev, S.R. Jurayev. Reducing energy costs of large pumping stations by using renewable energy sources.	179
E.Kh. Abduraimov. Ensuring the quality of electricity in power supply systems using contactless devices.	189

M.B. Khudayarov. Modeling method of an autonomous power supply system based on renewable energy sources.....	195
N.N. Sadullaev, M.O. Gafurov. Analytical research on the determination of a generalized energy efficiency indicator for an energy consumption object.....	206
G. J. Allayeva. The role of energy revolution in the transition to green economy.....	213
Z.I. Jurayeva, I.A. Yuldoshev, I.R. Jurayev. Experimental study of the operating parameters of a photovoltaic device designed for building facades.....	220
T.Sh. Gayibov, G.M. Turmanova. Optimization of power network states by voltage using genetic algorithm.....	230
M.M. Karimov, S.M. Nizamova. Development of methods and tools for mathematical and computer modeling of the process of inverse signal processing in measuring channels of energy facility monitoring systems.....	238
M.V. Sagatov, V.A. Fedorchuk. Study of the stability of the electric drive of the oil field mechanism based on the use of mathematical and computer modeling methods.....	250
I.U. Rakhmonov, N.N. Niyozov, D.A. Jalilova. Reliability assessment and early warning of central inverters in Uzbekistan's solar power plants.....	259
I.U. Rakhmonov, N.N. Niyozov, F.B. Omonov. Dynamic modeling and performance analysis of a grid-connected wind power system with simplified generator and MPPT control.....	265
M.F. Korjobova, D.A. Jalilova. Mathematical modeling of voltage sag regulation in spinning enterprises.....	272
